Science

Living Things & their Habitats

Key Learning

- ✓ To identify if something is alive, dead, or never alive
- ✓ To know that a habitat provides food, water and shelter.
- ✓ To know that animals and plants live in a habitat to which they are suited.
- ✓ To know that within a habitat there are different microhabitats
- ✓ To know what a simple food chain is

Key Vocabulary

Word	Definition
habitat	a place where an organism makes its home
microhabitat	a small area which differs somehow from the surrounding habitat
food chain	the order in which organisms, or living things, depend on each other for food.
conclusion	sums up what has been found out during an investigation

Art

Art Drawing

Blacknoll
class

Key Learning

- ✓ Draw light and dark lines (by varying the pencil pressure)
- ✓ Know different mediums: rubbers, pastels, felt tips, charcoal, pen, graphite, wax
- ✓ Know how to vary techniques for adding tone and texture to drawings
- ✓ Understand that you can use different pencil grades

Key Vocabulary

Word	Definition
self-portrait	a picture that the artist has drawn of themselves
medium	the materials an artwork is made from
pencil grade	how soft or hard a pencil is
pressure	how hard or light something is pressed
texture	how something feels, including its appearance

Frida Kahlo

She was a Mexican painter.
She was known for portraits, self-portraits and works inspired by the nature and artefacts of Mexico.

History

History of Toys

Blacknoll
class

Key Learning

- ✓ *I can use sources of evidence to find out about life in the past.*
- ✓ *I can examine the materials used in toys in the past and now.*
- ✓ *I can think about why these materials have changed and think about what materials might be used in the future.*
- ✓ *I can look at how toys have changed and plot them on a timeline.*

Key Vocabulary

Word	Definition
Electronic	Works with electric currents
Materials	a solid material which is typically hard and shiny.
Victorian	relating to, or characteristic of the reign of Queen Victoria of England
